DDS&T-3020-69

31 JUL 1969

MEMORANDUM FOR: Executive Director-Comptroller

SUBJECT: Renewal of External Contract [REDACTED]

25X1

REFERENCE: (a) Executive Director-Comptroller Memorandum, Same Subject,  
Dated 29 May 1969 (ER 69-2779/1)

(b) DDS&T Memorandum to Executive Director-Comptroller,  
Same Subject, Dated 19 May 1969 (DDS&T-1776-69)

1. You asked for clarification of an apparent increase in the FMSAC external analysis effort for FY 1971.

2. Reference B, paragraph 7 mistakenly implies that a substantive increase was projected for FY 1971 in the Missile and Space Analysis (MISPAL) effort under Task Order 5 of Contract [REDACTED]. The language of paragraph 7 appears to be contradictory in relationship to the allocation of the six additional positions and the elimination of certain contract effort.

25X1

3. We intended, in reference B, to point out that the next proposed renewal of the MISPAL contract would actually involve a consolidation of two separate task orders, the missile and space analysis effort (Task Order 5) and the [REDACTED] residue of the trajectory analysis work (Task Order 14). While the sum total of the consolidated task orders will be greater than the single task order approved by you on 29 May 1969, the dollar savings will result from the deletion of two contracts and the addition of six positions in FY 1970.

[REDACTED]  
(C) CARL E. DUCKETT  
Deputy Director  
for

Science and Technology
